## Introduction

This report outlines the University of Business and Technology's (UBT) contributions toward Sustainable Development Goal 11 (SDG11): Sustainable Cities and Communities, as part of its participation in the Times Higher Education (THE) Impact Rankings. It showcases UBT's efforts in promoting sustainable urban development through its academic and research endeavors.

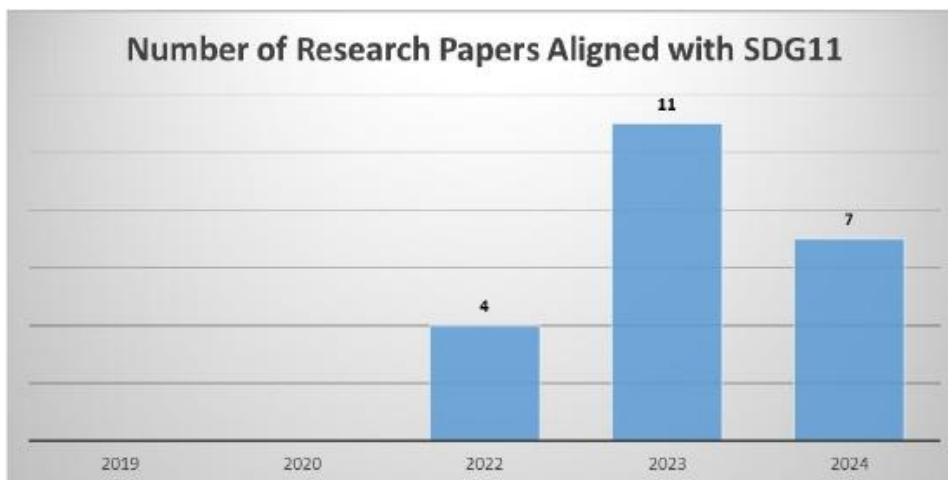

The report highlights the alignment of 112 academic courses with SDG11, emphasizing urban planning, community development, and sustainable infrastructure solutions. It also features 24 research projects addressing urban sustainability, resilience, and inclusivity, as well as initiatives to design smart cities and sustainable infrastructure systems. These efforts underscore UBT's commitment to fostering sustainable and livable urban environments for future generations.

## Research's Alignment with The SDG

UBT has conducted 24 research projects aligned with SDG11. These research initiatives include:

- Studies on the challenges and opportunities in urban sustainability.
- Research on policies to enhance resilience and inclusivity in urban areas.
- Collaborative projects focused on designing smart cities and sustainable urban infrastructure.

These research efforts reflect UBT's commitment to fostering sustainable urban growth and improving the quality of life in communities.

## Courses' Alignment with The SDG

The University of Business and Technology (UBT) has aligned 112 courses with SDG11. These courses focus on:

- Urban planning and the development of sustainable cities.
- Exploring the social, economic, and environmental aspects of community development.
- Teaching innovative solutions for sustainable housing, transportation, and infrastructure systems.

These courses equip students with the skills and knowledge to contribute to the development of sustainable urban environments.
