## 12.2.1 Have a policy on ethical sourcing of food and supplies ?

Yes

**Yes, UBT has a Sustainable Food Policy that emphasizes ethical sourcing of food and supplies to support environmental, social, and economic responsibility (see evidence No. 1 Sustainable food policy ). Recognizing the impact of food systems on global challenges, UBT is committed to promoting sustainable practices in food sourcing, production, and consumption. This policy ensures that all food and beverages provided across UBT's facilities are selected with consideration for environmental protection, social ethics, and animal welfare.**

**The policy covers a wide range of food items, including fruits, vegetables, fish, meat, poultry, and packaged goods available through vending machines. UBT prioritizes suppliers who follow ethical practices, such as sustainable farming, humane treatment of animals, and responsible resource management. By doing so, UBT aims to support local communities, reduce its environmental footprint, and encourage a culture of sustainability.**

**Additionally, UBT ensures that this policy is accessible to all stakeholders, including students, staff, visitors, and contractors, underscoring its commitment to transparency and accountability. Through these efforts, UBT not only contributes positively to the community and environment but also sets a standard for ethical and sustainable food choices in higher education.**

### 1. Purpose

UBT's main objective is to contribute and serve society and the community. Believing that food system can contribute to global environmental, social and economic challenges, UBT developed this policy to support its aim to benefit the society by offering and promoting sustainable and healthy food choices to its community and incorporate environmental, ethical and social considerations into the products and services it provides. This policy provides a framework of UBT commitments to ensure that food and drink is produced, sourced, consumed and disposed in such a way that
